VARILIGHT®

DIMMABLE
EnergySaver+

Important: Do not attempt to use this light bulb with a dimmer switch*. This may damage the light bulb beyond repair. This light bulb contains its own dimmer. Use with a conventional light switch.

* Choose the specially designed VARILIGHT® Dimmable EnergySaver+ for use with a dimmer switch.

Do not use with light fittings where the light bulb is surrounded by a glass globe as over-heating may lead to early bulb failure.

Please keep these instructions for future reference.

Reg. No. SD13

Thank you for choosing a VARILIGHT® Switch Dimmable EnergySaver+ Compact Fluorescent Lamp. During the lifetime of this light bulb (which is 16,000 hours) you can expect to save over £100 on energy bills and reduce CO2 emissions by over half a tonne!**

**Approximate values based on average usage

The groundbreaking technology in this product enables you to dim using a conventional light switch. Please follow the instructions below.

<p>①</p>  <p>Each time the lamp is switched on it comes on at the same brightness it was last switched off at.</p>	<p>②</p>  <p>To change the brightness, switch off and then on again within 1 second;</p>  <p>the lamp starts to cycle smoothly down and then up again***.</p> <p>*** After 6 cycles the lamp will return to its previous brightness setting so that, in the event of a power cut triggering the cycling process, the lamp's setting is restored</p>	<p>③</p>  <p>When the brightness you want is reached, switch off and on again. The lamp is now set at this brightness until you want to change it.</p> <p>To change the brightness, follow these steps again.</p>	<p>In a hurry?</p> <p>You can easily select full brightness at any time****</p>  <p><u>From the on position</u></p>  <p><u>From the off position</u></p>  <p>**** Don't switch too quickly! Ensure light bulb illuminates each time you switch on.</p>
