

VARILIGHT COLLECTION

Dimmers | Switches | Sockets | Accessories

British Made

CLASSIC

Our Classic Collection is available in a wide selection of finishes, many with a choice of black, white or decorative metal switch rockers in addition to toggle switch and push switch options. In fact the Classic Collection has the widest assortment of dimmers, switches, sockets and wiring accessories of all our ranges.

Our elegant Georgian rope-edge faceplate is a popular choice for traditional interiors and is offered in a beautiful polished brass finish.

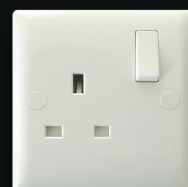

For a more contemporary take on a raised profile faceplate our bevel-edge design is a timeless classic, shown here in Satin.

Our bevel-edge faceplate looks stunning in any finish and works wonderfully in polished brass.

VARILIGHT VALUE

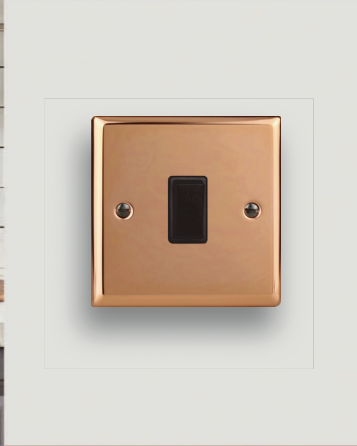

Our Polar White plastic and Matt Chrome metal ranges offer exceptional value.

URBAN COLLECTION

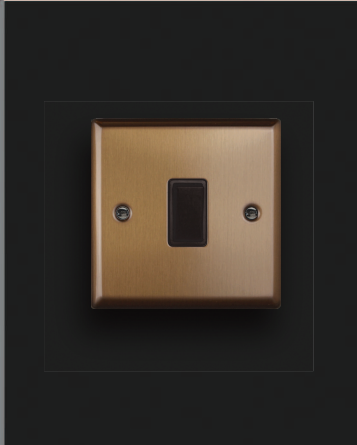

With a finely brushed finish, our Antique Brass faceplates exude a subtle elegance.

Create a contemporary statement and add warmth to any scheme with our stunning Polished Copper finish.

Our Urban Collection pairs raised profile faceplates with four inspirational finishes to bring an urban edge to stylish spaces.

Versatile Brushed Bronze complements a wide variety of colour schemes to convey a timeless sophistication.

Bold and beautiful, our Matt Black finish brings a room's decor bang up to date.

Inspired by the glamour of art deco, the switches, sockets and dimmers in the Vogue Collection will lift the decor of any room.

Polished brass switch rockers, toggles and knobs are paired with classic metal faceplates to combine simplicity with a touch of luxury.

VOGUE COLLECTION

SCREWLESS METAL

Our Screwless Metal Collection combines elegance and style in equal measure with its hidden fixings contributing to an understated aesthetic.

Screwless Metal is offered in our widest selection of decorative finishes, so there is an option available to coordinate with any colour scheme.

URBAN SCREWLESS

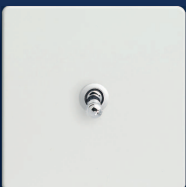

Featuring finishes inspired by the latest trends in interior design, our Urban Screwless Collection embraces minimalist design but delivers maximum impact.

SCREWLESS PLASTIC

Created using high gloss materials, and referencing 21st century design classics, our Screwless Plastic Collection makes a subtle style statement and will complement a wide variety of interior design schemes.

PRIMED METAL

Our Primed Metal faceplates are supplied ready to paint so that customers can choose colours to coordinate perfectly with their decor.

FREESTYLE

Our Freestyle Collection is supplied with clear plastic faceplates for individual designs. Used with wallpaper or paint, the dimmer, switch or socket becomes almost almost invisible. Alternatively, the products can be customised for individual projects, such as children's rooms and other themed spaces, using artwork or photos.

CLEAR FACEPLATES

POWERGRID

A flexible solution for even the largest space, PowerGrid is our versatile decorative grid switch range. Mix and match dimmers, switches and other accessories to create a bespoke switch plate with up to 12 gang faceplates available in a wide range of decorative finishes. Screwless options available up to 4-gang.

DATAGRID

DataGrid complements PowerGrid with a wide range of modules for data, telecommunications, audio and visual applications. DataGrid+ adds powered modules to the range including USB charging ports, mains sockets and dimmers. Decorative faceplates are available in every style and finish from the Varilight Collection to accommodate up to four DataGrid modules.

MATRIX

Matrix enables customers to create bespoke dimmer switches by choosing a combination of modules to suit their lighting loads and pairing them with a Matrix faceplate pack, which also includes control knobs.

V-PRO SMART

Control lights using a phone or tablet over a WiFi or data connection with a V-Pro Smart dimmer and the free app. Works with Amazon Alexa and Google Home. No special wiring or additional hub required. Enable multi-way dimming by using supplementary controllers alongside a V-Pro Smart dimmer. Non-WiFi dimmers also available. Industry-leading V-Pro dimming technology on board.
