Chalking It Up

What could be more appropriate for Britain's flagship wiring accessory manufacturer than a new finish with a nod to the White Cliffs of Dover? Our Chalk White finish is the new go-to for simple, understated elegance.

Early sales are very promising so we're already chalking it up as a success.

Get Smart!

V-Pro Smart dimmers are now available across our wide range of decorative faceplates. Use the Supla App to make light of dimming.

Making History

Aged to perfection, with our new Antique Brass finish we're making history.
