VARILIGHT QUARTERLY
Product News Update

Smart Sockets

Arriving soon this quarter are our new V-Pro Smart WiFi sockets. These can be used on their own or alongside our popular V-Pro Smart WiFi dimmers as part of a V-Pro Smart Home.

V-Pro Smart WiFi products can all be controlled using the Supla App.

- Simply replace existing socket
- Control appliances from your phone
- Simple control of hard-to-reach sockets
- Supports scene-setting and timer scheduling
- Works with Amazon Alexa & Google Home

Dimmable Drivers for LED Strip

A Varilight dimmable driver for 24V LED strip will soon be available. This will complement the existing 12V model. Both are rated at 40W. For superior dimming we recommend controlling them with Varilight V-Pro dimmers.

Lower Prices!

We're going beyond our current Price Lock Promise and have actually reduced prices on many key lines including:

> Double Sockets (Feb 2023)
> Double Sockets with USB C
> V-Pro Smart Dimmers
